350 Short-Block Engine - Repurposing

While many 350 CI engines can easily produce 400 or more horsepower, there are some internal parts that are prone to failure, such as connecting rod bolts. Along with proper machining and clearances, a rod bolt upgrade can be an inexpensive modification to help

- Take the 350, rebuild it with standard size bearings and rings, but install a set of 305 heads, a RV style cam or Chevy 350/350 camshaft. You can use a stock intake manifold with a quadrajet carb and you will have some decent power.
- Using 305 heads is the key.

OLD SCHOOL WAY TO BUILD A HOT
