domain may never have seen a computer. Google has been scanning books from public libraries and other sources for several years. That means you've got access to an entire library of classic literature that you can read on the computer or on a variety of mobile devices and eBook readers.

Hostile Environment Awareness Training Heat

HEAT (Hostile Environment Awareness Training) is a form of stress exposure training designed to equip individuals with the skills to work in dangerous places as safely as possible. Our HEAT programme is called SAFA (Security Awareness and First Aid) training. HEAT programmes require a degree of 'simulation,' placing participants in a position of stress to test what they have learned in the ...
