Your LG Washer/Dryer Combo Unit has a slight difference in how it is designed to dry compared to a standard dryer. Most Combo Units will automatically run a spin cycle before the DRY cycle begins. This is important because the washer will attempt to extract as much water as possible from the clothing before it begins to dry.

This combination washer/dryer is perfect if you don't have an external venting source, which conventional dryers require, and it runs on standard voltage electricity. Although it is a space-efficient laundry solution, ideal for locations where a separate washer and dryer wouldn't fit, the full-size tub (3.6 cu. ft.) means you won't be compromising on washing capacity.

Reinforce the floor. If leveling the LG washer does not stop the noise, especially if the noise is accompanied by excessive vibration, your floor may be too weak for the machine during its high-speed spin cycle. Put the washer on top of a sturdy board to provide a stable foundation. Solid wood planks work well.
