If you are reading a book, \$domain Group is probably behind it. We are Experience and services to get more books into the hands of more readers.

Rock The Dancefloor The Proven

Rock Around The Clock by Bill Haley & His Comets, a No.1 in the UK and US in 1955, was originally recorded a year earlier in a jazzy arrangement by Sonny Dae & His Knights. If you don't remember that, it's because Haley accomplished the most striking feat of all covers – to be the version most listeners know (in Haley's case that's on top of the 50 or more covers of the song after ...

Classic Rock - issue 03/2022

Heralding from a rock n'roll and jazz background Vaal is unperturbed by the strict rules that define & guard electronic music. 'Wander To Hell' is stripped back and gentle, highlighting the emotive side of the label. The combination of alluring vocals and beautiful reverberating chords along with the ebb and flow of distortion makes it a composition that grips the listener from start to ...

Realm Of Consciousness - Recordings - Afterlife

As a distinguished leader in the g-house movement, this DJ/producer has consistently proven he has what it takes to thrive in the scene, even despite the hardships the industry faces today. BIJOU, real name Ben Dorman, has gained all the necessary street cred and then some, starting with his show-stopping collaboration with Dr. Fresch, "Hello," in 2016.

Lineup | Decadence Arizona | December 30-31, 2021

In physics, sound is a vibration that propagates as an acoustic wave, through a transmission medium such as a gas, liquid or solid.. In human physiology and psychology, sound is the reception of such waves and their perception by the brain. Only acoustic waves that have frequencies lying between about 20 Hz and 20 kHz, the audio frequency range, elicit an auditory percept in humans.
