Security Camera Setup Guide

Similar to "Solo"- one Pi, 2 camera solution, my solution is for 2 Pi's with a camera each: If you only wish to view multiple cameras inside your home network just use the ip address of the Pi's followed by the same port number 8081 in a browser. eg 192.168.1.2:8081 and 192.168.1.3:8081 If you wish to view the cameras from outside your network, eg at work, you will need to specify a ...

How to setup a Raspberry Pi Security Camera Livestream

Camera: Select the camera you wish to add. In the example below camera1 (Pi Camera) and camera2 (USB WebCam) are connected to the Pi running MotionEye OS. While camera3 is coming from a different Pi that was set up using the webcam server tutorial. This method is a great way to set up a strong Raspberry Pi security camera network.
