Life Diet, says every time Oprah falls off the weight loss wagon,

it's harder for her to get back on. "One of the problems is her own success," he says. "She doesn't realize that the rules change. You know, age is a bear. You can't go back and work the same [as] when you were 30 or 40 when you're in your 50s."

Oprah's Weight Loss Confession

Studies have shown that extra weight around the waistline is more dangerous to the heart than extra weight that is on the hips and thighs. Measuring your waist, known as taking a waist circumference or abdominal girth measurement, is a great way to keep track of weight loss. This measurement will also show if you are/are not at risk for ...

The presence of an elevated level alkaline phosphatase is significant in post weight loss surgical patients because of its relationship to calcium and vitamin D absorption. When a patient has inadequate calcium and vitamin D absorption (or intake) this will result in elevation of the parathyroid hormone (PTH).
