The Universal Transfer Switch's greatest benefit is its ability to manage the home circuits you wish to power and "load shed." Load shedding enables the Universal Transfer Switch to automatically shut off power to non-essential items, so it can direct power to items that you consider a higher priority.

The Azimuth Pointing System™ (APS) is a GPS-based compass that provides True North or Grid North azimuth, GPS or UTM position - all in one device. It also has an integrated inclinometer, which allows the system to provide a complete orientation solution. With an LTI TruPulse Laser Rangefinder, the APS is a powerful all-in-one total station that does not require benchmarks or backsights to produce remote GPS coordinates.
