Judith Resnik - Yale Law School

The common law approach to the perpetuity rule was based on the assumption that if there was a mere possibility, however slight, that a future interest may vest outside the perpetuity period, the grant of the interest is void ab initio. This was the approach of the courts before 1964. For example, if S, a settlor, during his lifetime transfers a portfolio of shares to T1 and T2 as trustees, on ...

"Debt or equity?" That is the question many early stage founders face when raising capital. While SAFEs 1 may be the instrument of choice for many early stage companies today, some investors still prefer a traditional convertible note. A convertible note is a debt instrument that needs to be repaid-typically through cash or shares of a company.
